prior to menu item 48217's arrival, there was much international discussion about kneecaps which was lost on me until a disk of crispy fried chicken knees were placed on the table

the way that you present your facts is so emotionally charged that it is almost impossible to take them seriously

but balkrishnan said, "you can't put the blame solely on prescribers," adding that some patients insist on certain medications and find ways to obtain those drugs, despite their doctor's best efforts
